Leadership Dashboard

TIER 2 · PROFESSIONAL

STARTING AT

\$499

per month

\$5,988 / year · save 17%

Up to 5 seats · CISO + CFO + CEO + Board

DESIGNED FOR

Cross-functional leadership teams

Organizations where the CISO, CFO, and CEO jointly own risk acceptance, budget decisions, and board accountability.

Regulated enterprises

Companies subject to SEC Rule 33-11216, GDPR, SOC 2, or ISO 27001 requiring documented risk governance and audit-safe records.

Boards requiring oversight

Governance bodies that need immutable presentation snapshots, structured decision logs, and defensible audit trails.

VALUE DRIVERS

- Replaces consultant engagements
Eliminates \$5,000-\$15,000 per quarter in advisory fees for board reporting preparation.
SEC Rule 33-11216 defensibility
Immutable board snapshots and governance workflow satisfy cybersecurity disclosure documentation requirements.
Single source of truth
Dashboard, narrative, decision log, and board packet all originate from one platform. No parallel slide decks.

INP2 Leadership Dashboard

From reporting to governance. From briefing to defensible decision-making.

The governance standard for CISOs presenting to regulated boards under SEC Rule 33-11216, SOC 2, and ISO 27001.

EVERYTHING IN STARTER, PLUS:

- Up to 3 organizations managed under a single account with individual reporting periods
Unlimited risk register — no item cap, full business-impact framing, time-bound acceptance records
Multi-format export — PowerPoint, Word, PDF, Google Slides, and Google Docs from one click
BEI drill-down — interactive breakdown of each KPI's weighted contribution to composite score
Confidence maturity tracking — month-over-month data quality trend with benchmark targets per KPI

DECISION INTELLIGENCE

- 3-5 structured decisions per briefing cycle: Accept / Fund / Delay with documented rationale
Business upside, financial downside, and regulatory exposure quantified per decision item
Decisions auto-update as KPI inputs change — no manual refresh or re-export required
Pre-framed decision cards surfaced directly to executive stakeholders on login

GOVERNANCE WORKFLOW AND AUDIT TRAIL

- Draft to Review to Final to Presented workflow with role-based stage ownership
Immutable Presented to Board snapshot — tamper-proof record of exactly what was shown
Full version history with author attribution, timestamp, and itemized change log
Risk Acceptance Ledger — formal owner, acceptance date, conditions, auto-surfaced at threshold

WHAT THIS MEANS FOR YOUR ORGANIZATION

\$5-15K

in consultant fees eliminated per quarter

4-step

audit-safe governance workflow built in

1 source

of truth for all board reporting

AVAILABLE ADD-ONS

Executive read-only seat

\$49 / seat / month

CEO, CFO, or COO login with view-only access. They see their dashboard, add comments, and review decisions — no data entry. Sold direct to the executive, not the security team.

Book bundle

+\$99 one-time per user

Physical or digital copy of Cybersecurity for Non-Technical Leaders added to any new subscription. Ideal for onboarding executive stakeholders before their first board review.

Onboarding session

\$499 one-time

90-minute live setup session with Kirk Anderson or a certified partner. Data entry walkthrough, KPI calibration, and first board packet drafted together.

Annual strategy review

\$1,200 / year

One annual 60-minute advisory call to review BEI trends, KPI calibration, and board narrative strategy. Positions Kirk as an ongoing thought partner for your governance program.

Professional includes a 30-day free trial. Onboarding session available at \$499. Annual billing recommended.

“

Security decisions are business decisions. Every red metric should surface a pre-framed ask, not a technical explanation.

— Kirk M. Anderson, INP2
